CHAPTER 19

Historic Preservation

ARTICLE I General Provisions

Sec. 19-1. Purpose and intent.

- (a) In order to foster civic pride in the beauty and accomplishments of the past, and in order to create eligibility for state or federal grant funds for the restoration, stabilization, and preservation of landmarks within the Town of Buena Vista that reflect outstanding elements of the Town's cultural, artistic, social, economic, political, architectural, historic or other heritage, a procedure for designating historic local landmarks within the Town is needed.
- (b) The intent of this Chapter is to create a reasonable balance between private property rights and the public interest in preserving the Town's unique historic character and culture. The intent is to provide incentives to preserve historic and architecturally significant sites, buildings, structures, neighborhoods and districts by providing guidelines for the appropriate use of land and the moving, demolition, reconstruction, restoration, or alteration of such buildings, sites, and structures that comply with state and federal historic preservation laws, thereby making certain tax credits available to private property owners and making other benefits and incentives available for preservation projects.

(Ord. 14 §1 , 2016)

Overwhelming historical significance means either possessing such unusual or uncommon significance that any structure's potential demolition or major alteration would diminish the character and sense of place in town; or possessing superior or outstanding examples of the architectural, social, or geographic historic significance criteria outlined in the standards and criteria set forth in this Chapter. The Commission may grant extensions of the time period for good cause.

(Ord. 14 §1 , 2016; Ord. 2 , § 3, 2021)

Sec. 19-~~121~~. Certificate of historic appropriateness.

Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
 - (5) Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
 - (8) All historic or contributing buildings, structures, and sites shall be recognized as products of their own time and place. Changes that may have taken place in the course of time are evidence of the history and development of a building, structure, site, or environment. These changes may have acquired significance in their own right, and every consideration should be made for their retention and preservation. If they are not to be retained, the applicant must present a reasonable argument for their removal that restores the structure to a significant historical period in the structure's history. Alterations that have no historical basis and which seek to create an earlier or nonlocal appearance shall be discouraged.
- (e) The Commission shall approve, modify and approve or deny the application. Any decision of the Commission approving or disapproving an application for a certificate of historic appropriateness. The Town shall issue a certificate of historic appropriateness for any proposed work on a designated historical structure or site only if the Commission can determine that the proposed work would not detrimentally alter, destroy, or adversely affect any feature that was found by the Board of Trustees in the original designation to contribute to the designation of the structure or site.

(Ord. 14 §1 , 2016; Ord. 2 , § 4, 5, 2021)

Sec. 19-1~~32~~3. Hardship exemption.

- (a) The Commission may exempt a structure or site from the requirement of obtaining a certificate of historic appropriateness or certificate of demolition if the Commission finds that the property owner has shown that the obtaining of a certificate creates or would create an undue hardship.
- (b) An exemption based on noneconomic hardship may be found by the Commission when requirement to obtain a certificate creates a situation substantially inadequate to meet the applicant's needs because of specific health or safety issues.
- (c) An exemption based on economic hardship may be found by the Commission applying the following standards:
 - (1) The applicant's knowledge of the designation at the time of acquisition, or whether the property was designated subsequent to acquisition;
 - (2) The current level of economic return on the property as considered in relation to the following:
 - a. The marketability of the property for sale or lease, considered in relation to any listing of the property for sale or lease, and price asked and offers received, if any, within the previous two (2) years.
 - b. The infeasibility or feasibility of alternative uses that can earn a reasonable economic return for the property.
 - c. Economic incentives or funding available to the applicant through federal, state, town, or private programs.
 - (3) Economic hardship does not include self-created hardships, willful or negligent acts by the owner, purchase of the property for substantially more than the market value, failure to perform normal maintenance and repairs, failure to diligently solicit and retain tenants, or failure to provide normal tenant improvements.
- (d) The Commission shall hold a public hearing as soon as practical, after the notice prescribed in Section 19-6(c), to take final action on the application.
 - (1) If after reviewing all of the evidence, the Commission finds that the application of the standards set forth in subsection (c) of this section results in economic hardship, then the commission shall issue a certificate of economic hardship, allowing the proposed alteration, or a certificate of demolition.
 - (2) If the Commission finds that the application of the standards set forth in subsection (c) of this section does not result in economic hardship, then the certificate of demolition shall be denied.

(Ord. 14 §1 , 2016; Ord. 13 , § 2, 2019; Ord. 2 , § 6, 2021)

If a certificate for demolition is requested on any basis other than that of an imminent hazard or economic hardship, a certificate of demolition will not be issued until all criteria in subsection (b) of this Section are met.
- (b) Applicants requesting a certificate of demolition must provide data to clearly demonstrate that the situation meets all of the following criteria:

-
- (1) The structure proposed for demolition is not structurally sound despite evidence of the owner's efforts to properly maintain the structure. An architect or engineer with extensive historic building experience will be required to submit a report with sufficient evidence related to the building's structural integrity.
 - (2) The structure cannot be rehabilitated or reused on-site to provide for any reasonable beneficial use of the property.
 - (3) The structure cannot be practically moved to another site.
 - (4) The applicant demonstrates that the proposal mitigates to the greatest extent practical the following:

 - c. Any impact to the architectural integrity of the remaining structures located on the property and adjacent properties.
- (c) In the case of archaeological sites, consideration will be given to whether information can be recovered as part of the demolition process.
- (d) Review criteria for partial demolition:
- (1) The partial demolition is required for the renovation, restoration, or rehabilitation of the structure; and
 - (2) The applicant must mitigate, to the greatest extent possible:
 - a. Impacts on the historic importance or character defining features of the structures located on the property.
 - b. Impacts on the architectural integrity of the structures located on the property.

(Ord. 14 §1 , 2016; Ord. 2 , § 7, 2021)

Sec. 19-154. Alteration, demolition or relocation of non-designated structures.

- (a) No person shall alter, demolish, or relocate any structure over fifty (50) years old, or any portion thereof, without first applying for and receiving a certificate from the Planning Department.
- (b) Within thirty (30) days of receipt of an application required under this Section, the Planning Department shall determine whether the structure is eligible for historic designation by applying the criteria for designation set forth in Section 19-7. If the Planning Department determines the structure is ineligible for designation, a certificate shall be issued. If the Planning Department determines the structure is eligible for designation, the Planning Department shall next determine whether the proposal will impact the historic importance or character-defining features of the structure. If not, the Planning Department shall issue the certificate. If the proposal will impact the historic importance or character-defining features of the structure, the application shall be forwarded to the Commission for determination of its eligibility for designation under the criteria for designation set forth in Section 19-7.
